VISION

To be a leading and distinguished School of Business, recognized for excellence in education, research, innovation, and community engagement. The School aims to build a strong competitive position locally and regionally by delivering contemporary, high-quality learning experiences and contributing to sustainable development and the evolving needs of society.

MISSION

The School of Business is committed to providing high-quality, forward-thinking academic programs that equip students with the knowledge, skills, and professional values needed to succeed in a dynamic and competitive business environment. The School fosters an entrepreneurial and innovative mindset, encourages impactful research, and provides a collaborative environment for learning, research, and consultancy that responds to the needs of business, society, and the environment, in alignment with Egypt's Vision 2030.

PART 1 OF 2

Strategic Goals

GOAL 01

Enhance Academic Excellence

Continuously improve the quality of teaching and learning by implementing innovative teaching methods, outcome-based curricula, and student-centered practices.

GOAL 02

Advance Research and Scholarly Contributions

Promote innovative and interdisciplinary research that significantly enhances business knowledge, informs best practices, and supports sustained economic and societal development.

GOAL 03

Empower Student Success and Leadership

Equip students with the analytical, ethical, and leadership skills essential for thriving in a dynamic global business environment.

GOAL 04

Foster Community Engagement and Social Responsibility

Strengthen partnerships with local, national, and international stakeholders to address real-world challenges and promote inclusive, sustainable development.

PART 2 OF 2

Strategic Goals

GOAL 05

Promote Interdisciplinary and Collaborative Learning

Foster interdisciplinary collaboration among faculty members, students, and external partners to effectively address complex challenges in business and society.

GOAL 06

Cultivate an Inclusive and Supportive Environment

Ensure diversity, equity, and inclusion across all areas of the school, creating a learning environment where all individuals feel respected and empowered.

GOAL 07

Integrate Experiential and Hands-On Learning

Enhance the availability of internships, consulting projects, simulations, and other forms of applied learning to bridge the gap between theoretical knowledge and practical application effectively.

GOAL 08

Develop Global Competence and Engagement

Promote international perspectives by establishing global partnerships, facilitating exchange programs, and developing curricula that accurately portray the interconnected nature of today's economy.

AVAILABLE PROGRAMS

11 / 22

PROGRAM 01 — PROGRAM HIGHLIGHTS

Marketing

The Marketing program is designed for students who are curious about how ideas, messages, and products influence public perception and consumer behavior. It blends analytical thinking with creative exploration, offering a profound understanding of how organizations convey value, cultivate relationships, and establish trust with their audiences. With a strong emphasis on research, branding, and innovation, the program examines the role of marketing in driving strategic growth and adapting to evolving cultural and technological landscapes. Students are introduced to marketing analytics as a vital tool for interpreting data, evaluating performance, and supporting evidence-based decision-making. The curriculum also explores the growing influence of technology and artificial intelligence in modern marketing, enabling automation and transforming how businesses interact with consumers in real time. By combining strategic insight with digital fluency, the program prepares students to navigate and lead in a fast-paced, digital-first world.

AVAILABLE PROGRAMS

12 / 22

PROGRAM 01 — SKILL DEVELOPMENT

Marketing graduates lead the way in understanding customer behavior, brand development, and digital engagement. Career options include:

1 Marketing Manager

3 Digital Marketing Specialist

5 Social Media Manager

7 Advertising Executive

2 Brand Strategist

4 Market Research Analyst

6 Public Relations Specialist

8 Content Strategist

AVAILABLE PROGRAMS

PROGRAM 02 — PROGRAM HIGHLIGHTS

Finance

13 / 22

The Finance program is built on a foundation of analytical rigor, structured reasoning, and strategic insight. It challenges students to critically engage with the financial systems, models, and decision-making frameworks that govern the allocation of resources within organizations and across markets. Through a curriculum that emphasizes quantitative analysis and financial logic, students develop the ability to evaluate performance, interpret complex financial data, and assess the implications of risk and uncertainty in various economic contexts. The program encourages conceptual thinking, precision, and ethical awareness, equipping students with intellectual tools to understand how financial decisions create, sustain, or compromise value in both corporate and institutional settings.

AVAILABLE PROGRAMS

14 / 22

PROGRAM 02 — SKILL DEVELOPMENT

AVAILABLE PROGRAMS

PROGRAM 04 — PROGRAM HIGHLIGHTS

Business Information Systems

The Business Information Systems program focuses on the design, implementation, and management of information systems that support core business operations and strategic decision-making. Positioned at the intersection of business and technology, the program equips students with the knowledge to understand organizational needs and translate them into effective digital solutions. Emphasis is placed on systems analysis, process integration, data management, and enterprise technologies, allowing students to explore how information flows within and across organizations. The curriculum develops analytical thinking, problem-solving skills, and technical proficiency while also fostering an understanding of how digital tools can enhance efficiency, support innovation, and enable competitive advantage. With its applied, systems-oriented approach, the program prepares students to align technology with business goals in today's data-intensive environment.

AVAILABLE PROGRAMS

PROGRAM 05 — PROGRAM HIGHLIGHTS

Accounting

19 / 22

The Accounting program is grounded in structure, precision, and ethical responsibility. It offers a disciplined academic experience that reflects the rule-based and standards-driven nature of the field. Students engage with core principles that govern financial reporting, auditing, and regulatory compliance, developing a strong command of how financial information is recorded, classified, and communicated. The program emphasizes logical thinking, attention to detail, and the ability to apply standardized frameworks to real-world scenarios. Through this rigorous approach, students gain the tools to ensure transparency, uphold accountability, and contribute to the financial integrity of organizations across sectors.
